LVS Oxford is committed to providing an environment that enables full curriculum access that values and includes all learners, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school. The school will monitor its activity under the Equality Act 2010 (and in particular Schedule 10 regarding Accessibility) and will advise upon the compliance with that duty.

LVS Oxford three year plan includes plans on how:

- We will increase the extent to which students with SEN can participate in the school's **curriculum**
- How we intend to improve **communication** for students with SEN
- Plans on how we are improving the **physical environment** in order to increase the extent to which students with SENs are able to take advantage of education and associated services offered here at LVS Oxford

DEFINITION

SEN:

A pupil has SEN where their learning difficulty or disability calls for special educational provision, namely a provision different from or additional to that normally available to pupils of the same age. (SEND Code of Practice 2014).

The Disability Discrimination Act (DDA 1995) defines disability:

“A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities”

Not all students who have a learning difficulty or special educational need are disabled.

Under the Special Educational Needs and Disability Act 2001 (SENDA), schools, colleges, universities, adult education providers, statutory youth services and local education authorities were required to make the same sort of reasonable adjustments for disabled people as stipulated in the DDA 1995. The aim of including these groups, organisations and bodies in the Act was to ensure that disabled people were offered the same opportunities and choices as those in mainstream society. It was also designed to make sure that where possible, disabled people have the right to be able to work at their fullest capacity and have the chance to fulfil their potential.

KEY OBJECTIVES AND PRINCIPLES

- Not discriminate against learners with a disability in admissions and exclusions, provision of education and associated services
- Set out procedures to enable all students with SEND to reach their full potential, to be fully included in the School community and to make a successful transition to adulthood
- Afford opportunities to students with SEND and ensure that the culture, practice, management and deployment of resources are designed to meet the needs of all students with SEND
- Ensure compliance with the Equality Act 2010/SENDA Act 2001
 - Have regard to guidance issued by the Equality and Human Rights Commission as is in force and amended from time to time
 - Detect and manage learning difficulties whilst having regard to the SEND Code of Practice or any substituting or amending code of practice as issued from time to time
- Operate a “whole student, whole school” approach to the management and provision of support for SEND
 - Work in partnership with parents to enable them to make an active contribution to the education of their child
- Not treat learners with a disability less favourably for a reason related to their disability
 - Make reasonable adjustments for learners with a disability so that they are not at a substantial disadvantage
- Plan to increase access to education for learners with a disability
 - Recognise and value parents/carers knowledge of their child’s disability and its effect on his/her ability to carry out normal activities and respect their rights to confidentiality
 - Provide all learners with a broad and balanced curriculum, differentiated and adjusted to meet the needs of individual learners and their learning styles whilst endorsing the key principles of the National Curriculum
- Set suitable learning challenges
- Respond to learners diverse learning needs
- Overcome potential barriers to learning and assessment for individuals and groups of learners

LVS Oxford is committed to making the school environment as accessible as possible for all learners, staff and visitors.

Education and Related Activities

In relation to accessing the curriculum, the school will continue to seek and follow the advice of outside agencies such as SEN consultants and appropriate health professionals. Included in this are examples such as expanding or adapting the curriculum offered to ensure that learners with a disability are equally as prepared for life as their typically developing peers.

Physical Environment

The building has been decorated with paint schemes which offer a calm environment for learners with a diagnosis on the autism spectrum. There is a lift in the building to allow easier access to the first floors for learners, parents and visitors with impaired mobility. Classroom lights are fitted with diffusers and acoustic panels help absorb excess noise in the dining hall. The grounds are extensive and the atmosphere is peaceful and welcoming.

Provision of Information

LVS Oxford will provide information to learners, staff, parents and visitors in alternative formats within a reasonable timeframe when required or requested. The therapy team can provide communication using SYMBOL and other adapted communication devices and communicators can be requested for the hearing impaired.

School Transport

Local authorities make the decision to provide transport to and from LVS Oxford on a case by case basis for a student with a disability. They will assess the learner's needs when making a decision, taking into account their disability and/or health and age.

Training

Whole school training will recognise the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010/SENDA Act 2001.

Audit of Children with Additional Learning Needs and those with Protected Characteristics as described by the Act

All students at LVS Oxford have a diagnosis of ASD and some have associated difficulties such as dyspraxia, dyslexia, ADHD as well as various medical problems. When required, we will make reasonable adjustments to ensure any student with a disability is able to access the School's educational provision, e.g. improved signage in the School. Staff training is designed to ensure that staff can meet the needs of students in the school. Induction programmes are held prior to entry into the School to familiarise students with facilities and understanding the school day.

Equality Act 2010

Accessibility Plan 2019-2020

The School is aware that difficulties may be experienced from time to time by the need for disabled students to move around the school site and as a result of the school buildings. The School's Accessibility Plan will consider ways in which accessibility may be improved, subject to planning and budgetary constraints. Accessibility will always be a factor when planning new buildings. This plan includes how the school plans to:

Increase the extent to which disabled students (including those with special educational needs) can participate in the School's curriculum

Improve the provision to disabled students of information which is already in writing for students who are not disabled

Improve the physical environment of the school in order to increase the extent to which disabled students are able to take advantage of education and associated services offered by the School.

This plan is compliant with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010.

Any actions identified in the school's accessibility plan will be included in the School Improvement Plan and three year school plan.
