## WORK EXPERIENCE PARTNERSHIPS

We believe that work experience is pivotal in our students' progression into adulthood and steps toward their future careers.

Through work experience, they will gain:

- an understanding of a work environment and employers' expectations
- Increased self-understanding, maturity, independence, and self-confidence
- Opportunities to develop work-related competencies and develop important transferrable skills
- An opportunity to explore possible career options

As a school, we work hard to establish links with businesses in the local community as well as nationwide employers. We have a fantastic relationship with Blenheim Palace, Fairytale Farm, and Begbroke Playgroup.

We are currently in discussions with Soho Farmhouse and Whitbread group and hope this will be successful and create many more exciting opportunities for our students.
